evolveplus

PC Booking Solutions

BookingsPlus is an integrated suite of web applications that streamlines the daily booking tasks often undertaken in range of organisations including libraries, community hubs, councils and businesses.

Using the PC bookings and management module, it's easy to moderate the usage in your organisation. Both the staff and the users can view availability and make booking reservations effortlessly with a minimum of fuss.

BookingsPlus is cleverly configured to authenticate patrons using popular protocols like SIP2 and Web Services as well as the ability to create guest passes for visitors.
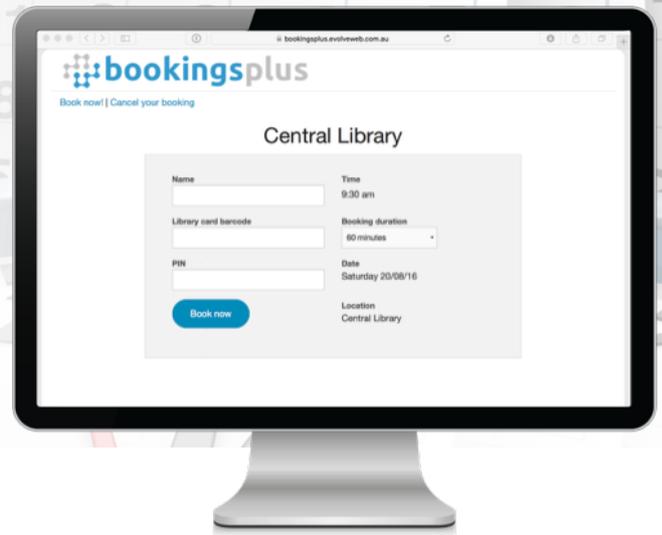

PC Bookings Key Features:

- Cloud Solution - securely hosted by EvolvePlus
- Centralised PC booking system across all branches
- No Upfront Software License Costs
- Patrons can self-book a PC via web browser
- Patrons can walk up to an available PC and use immediately without making a booking
- Schedule a group of PCs for a Training Class
- Schedule reoccurring bookings
- Flexible or fixed bookings times
- Timed based session control with automatic log off
- Create express internet access PCs

- Integrated PC Client software compatible with Windows 7, 8 and 10
- Create visitor logins.
- Customised end session warnings (x2).
- Create 'Out of Order' messages for broken PCs
- Daily usage reports for management analysis.
- Patrons can lock current session
- SIP2 & SOAP (Web Services) user authentication.
- Can be integrated with pay/print systems.
- "Staff Release" Print Management under development (can also use other solutions such as PaperCut)

Your Complete Resource Booking Solution

BookingsPlus is more than an online PC bookings management system. It also offers event registrations, room bookings management, fleet vehicle booking or anything in between, and are all offered as a scalable cloud solution .
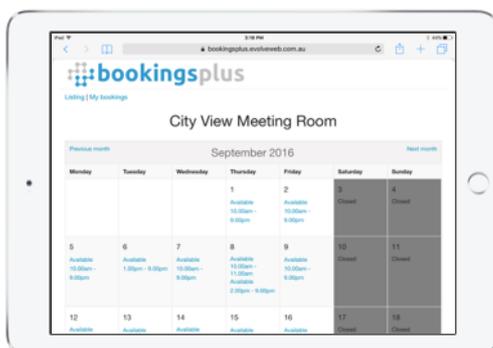

Other integrated components of BookingsPlus include:

- Room Bookings Management with user defined data fields
- Online Event Management with Calendar Summary
- Game Console Bookings
- Library Noticeboard and Automated TV Display modules
- Staff Leave Request module
- Optional RefPlus module for Reference Tracking and Customer Requests
